Construction site Rosewood Amsterdam

Dear sir, madam, dear neighbors,

As you already have experienced, we are finishing the new Rosewood hotel at the Prinsengracht. Besides Rosewood, Gemeente Amsterdam also executed the works at the bridge Leidsestraat, and the full new quay is still under construction by Beens.

This leads us in a logistic puzzle in the Langeleidsedwarsstraat, all logistical movements nowadays go through the backside into the hotel and construction offices need to be removed out being able to finish the hotel.

After diverse contact with the local authorities, we have agreed to use 1 extra pontoon on the Prinsengracht, and we also agreed to enlarge the existing pontoon which already is positioned at the Prinsengracht. This extra and enlarged pontoon is permitted and they are already in progress for installation. We use these 2 external pontoons as lunch area, construction offices and stock area.

The smaller ponton can be positioned in front of the hotel, the larger pontoon can only be parked next to the bridge of the Leidsestraat as Nautisch beheer cannot give approval on a other position. When possible, it can be parked near the Leidsegracht. By the quickest moment when Gemeente Amsterdam/Beens are ready with the works on the quay we will move the bigger pontoon to the corner of the Leidsegracht.

Above is needed being able to finish the Rosewood hotel in shortest term and minimize hindrance and nuisance for you as neighbors.

We apologize for this hindrance.

If you have any questions, please do not hesitate to contact us at [info@prinsengracht432.nl](mailto:info@prinsengracht432.nl)

With kind regards/ met vriendelijke groet,

Slokker Bouwgroep & CRHS
