

Monday 2<sup>nd</sup> of September

Construction site Rosewood Amsterdam

Dear sir, madam, dear neighbors,

As you already have experienced, we are finishing the new Rosewood hotel at the Prinsengracht. Besides Rosewood, Gemeente Amsterdam also executed the works at the bridge Leidsestraat, and the full new quay is still under construction by Beens.

This leads us in a logistic puzzle in the Lange Leidsedwardsstraat, all logistical movements nowadays go through the backside into the hotel as we don't have availability on the front side of the hotel. All construction offices will go to the Prinsengracht, and we are preparing the hotel for Rosewood to come in with small steps.

After diverse contact with the local authorities, we have agreed that we can do the needed crane works on Tuesday and Thursdays.

- Tuesdays up to 29th of October
- Thursdays up to 26<sup>th</sup> of December

With 2 times per week the coming period, we are able to shorten the timeline to finish.

When cranes are in the street, there always be:

- Trafficcontrol in the beginning and end of the street, and around the crane
- Maximum check on availability parkings
- Transports in the street for the crane, with the goal to unload a.s.a.p.

Next to this we are still, together with the municipality, trying to use the new quay for transports into the main entrance of the hotel.

That means that we can plan a maximum of logistical movement trough the entrances at the Pinsengracht. This will release the presssure at the Lange Leidsedwardsstraat.

Above is needed being able to finish the Rosewood hotel in shortest term and minimize hindrance and nuisance for you as neighbors.

We apologize for this hindrance.

If you have any questions, please do not hesitate to contact us at [info@prinsengracht432.nl](mailto:info@prinsengracht432.nl)

With kind regards/ met vriendelijke groet,
